Applicant : Jean-Marc Guillez et al. Art Unit : 3612
Serial No. : 10/517,127 Examiner : Unknown
Filed : September 29, 2005
Title : SHELF ASSEMBLY FOR A VEHICLE

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

REQUEST FOR CORRECTED OFFICIAL FILING RECEIPT

Please correct the title to SHELF ASSEMBLY FOR A VEHICLE on the Filing Receipt for the above-referenced application. Please supply a corrected Filing Receipt to the undersigned with respect to this application. A copy of the original Filing Receipt showing the desired changes in red ink is attached for your convenience. Also attached is a copy of the Preliminary Amendment filed with this application showing the change of title.

No fee is believed to be due. If, however, there are any charges or credits, please apply them to Deposit Account No. 06-1050.

Respectfully submitted,

Date Mailed: 01/12/2006

Receipt is acknowledged of this regular Patent Application. It will be considered in its order and you will be notified as to the results of the examination. Be sure to provide the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION when inquiring about this application. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. If an error is noted on this Filing Receipt, please mail to the Commissioner for Patents P.O. Box 1450 Alexandria Va 22313-1450. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections (if appropriate).

Package shelf for a convertible *SHELF ASSEMBLY FOR A VEHICLE*

Preliminary Class

296

PROTECTING YOUR INVENTION OUTSIDE THE UNITED STATES

Since the rights granted by a U.S. patent extend only throughout the territory of the United States and have no effect in a foreign country, an inventor who wishes patent protection in another country must apply for a patent in a specific country or in regional patent offices. Applicants may wish to consider the filing of an international application under the Patent Cooperation Treaty (PCT). An international (PCT) application generally has the same effect as a regular national patent application in each PCT-member country. The PCT process **simplifies** the filing of patent applications on the same invention in member countries, but **does not result** in a grant of "an international patent" and does not eliminate the need of applicants to file additional documents and fees in countries where patent protection is desired.

Almost every country has its own patent law, and a person desiring a patent in a particular country must make an application for patent in that country in accordance with its particular laws. Since the laws of many countries differ in various respects from the patent law of the United States, applicants are advised to seek guidance from specific foreign countries to ensure that patent rights are not lost prematurely.

Applicants also are advised that in the case of inventions made in the United States, the Director of the USPTO must issue a license before applicants can apply for a patent in a foreign country. The filing of a U.S. patent application serves as a request for a foreign filing license. The application's filing receipt contains further information and guidance as to the status of applicant's license for foreign filing.

Applicants may wish to consult the USPTO booklet, "General Information Concerning Patents" (specifically, the section entitled "Treaties and Foreign Patents") for more information on timeframes and deadlines for filing foreign patent applications. The guide is available either by contacting the USPTO Contact Center at 800-786-9199, or it can be viewed on the USPTO website at <http://www.uspto.gov/web/offices/pac/doc/general/index.html>.

For information on preventing theft of your intellectual property (patents, trademarks and copyrights), you may wish to consult the U.S. Government website, <http://www.stopfakes.gov>. Part of a Department of Commerce initiative, this website includes self-help "toolkits" giving innovators guidance on how to protect intellectual property in specific countries such as China, Korea and Mexico. For questions regarding patent enforcement issues, applicants may call the U.S. Government hotline at 1-866-999-HALT (1-866-999-4158).

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Bureau of Industry and Security, Department of Commerce (15 CFR parts 730-774); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

TECHNICAL FIELD

Please add the following centered heading at page 1, line 4:

BACKGROUND

Please add the following centered heading at page 1, line 33:

SUMMARY

Please add the following centered heading at page 2, line 33:

DESCRIPTION OF THE DRAWINGS

Please add the following centered heading at page 3, line 19:

DETAILED DESCRIPTION

Amendments to the Claims:

This listing of claims replaces all prior versions and listings of claims in the application:

Listing of Claims:

1. (Amended) On a vehicle having a longitudinal direction and comprising a frame, a rear boot, a hood on said rear boot, said hood having a front edge and a rear end on said longitudinal direction, and a seat having a backrest disposed close to a front end of said boot;
a shelf ~~Shelf~~ assembly (3) ~~for a vehicle comprising:~~

a movable shelf (4, 48) adapted to be mounted, in a movable manner, onto two tracks (5, 46) ~~between, on one hand,~~ a deployed position in which ~~it~~ said movable shelf essentially covers the an area located between the front edge (6a) of the hood (6) of the rear boot (1) of the vehicle and the backrest (7a) of the seat (7) delimiting the boot (1), and on the other hand, a retracted position in which it uncovers ~~this~~ said area, each track (5, 46) extending along said longitudinal direction of the vehicle and being fixed to one of the hood and a support element (6, 45) attached to the frame of the said vehicle and substantially extending along the longitudinal direction of the vehicle,

~~driving means (8), which comprise~~ comprising a first part (10) fixed to the movable shelf (4, 48) and a second part (11) engaging the first part (10), said driving means being adapted to displace the movable shelf (4, 48) from one of its positions to another between said respectively deployed and retracted positions, wherein it comprises, and,

supporting means (9, 47) onto which the movable shelf (4, 48) is mounted in a movable manner, and which are adapted to be mounted in a movable manner onto the support element (6, 45), and in that the second part (11) of the driving means (8) is being fixed to the supporting means (9, 47), and the displacement of the movable shelf (4, 48) with respect to the supporting means compelling the displacement of the shelf (4, 48) from one of its positions to another between said respectively deployed and retracted positions and the displacement of the supporting means (9, 47) with respect to said one of the hood and the support element (6, 45).

2. (Amended) ~~Shelf~~ The shelf assembly (3) set forth in claim 1, wherein the supporting means (9, 47) comprise two sliders (9, 47) which are adapted to extend on either

side of the vehicle, transversally to said longitudinal direction thereof and which are swivel mounted onto said one of the hood and the support element (6, 45), the shelf (4, 48) being slide mounted along the sliders (9, 47) and both swivel and slide mounted along the tracks (5, 46).

3. Canceled

4. (Amended) ~~Shelf~~ The shelf assembly (3) set forth in claim 2 ~~or 3~~, wherein the movable shelf (4, 48) comprises two guiding elements (13), each ~~guiding element (13) of which is being~~ slide mounted along the corresponding slider (9, 47) and in a swivel and slide manner along the corresponding track (5, 46).

5. (Amended) ~~Shelf~~ The shelf assembly (3) set forth in claim 4, wherein the driving means (8) comprise two racks (11) and two worms (10), each rack (11) being mounted along the corresponding slider (9, 47), and each worm (10) engaging the corresponding rack (11) and being rotary mounted onto the corresponding guiding element (13) about an axis of rotation (18) substantially extending along ~~the~~ said longitudinal direction.

6. (Amended) ~~Shelf~~ The shelf assembly (3) set forth in claim 4 ~~or 5~~, wherein: said one of the hood and the support element has a side rim, a median part and, each guiding element (13) has an inverted U-shaped structure and has a base wall (21), an external side wall (22) extending from the base wall (21) and placed near ~~the~~ said side rim (23) ~~of the support element (6, 45)~~, and an internal side wall (24) extending from the base wall (20) and placed near ~~the~~ said median part ~~of the support element (6, 45)~~.

7. Canceled

8. Canceled

9. Canceled

10. (Amended) ~~Shelf~~ The shelf assembly (3) set forth in ~~any of claims 1 to 9~~ claim 1, wherein: ~~the support element (6) is created by the hood (6) of the rear boot (1),~~ the tracks are fixed to said hood, and, the tracks (5) and the supporting means (9) ~~being~~ are configured so that the shelf (4) is adapted to being placed under the hood (6) when in its retracted position.

11. (Amended) ~~Shelf~~ The shelf assembly (3) set forth in claim 10 ~~depending on claim~~ 2, wherein:

the supporting means comprise sliders which are adapted to extend on either side of the vehicle, transversally to said longitudinal direction thereof and which are swivel mounted onto said hood, the movable shelf being slide mounted along the sliders and both being swivel and slide mounted along the tracks, and,

each slider (9) is swivel mounted onto the hood (6) at its rear end (9b) and is adapted to extend along a substantially horizontal direction.

12. Canceled

13. (Amended) ~~Shelf~~ The shelf assembly (3) set forth in ~~any of claims 1 to 9~~ claim 1, wherein:

~~the support element (45) is created by~~ tracks are fixed to the frame (45) of the vehicle, and,

the tracks (46) and the supporting means (47) ~~being~~ are configured so that the shelf (48) is adapted to be arranged ~~behind~~ along the backrest (7a) of the seat (7) ~~delimiting the~~ boot (1) when in its retracted position.

14. Canceled

15. (Amended) ~~Shelf~~ The shelf assembly (3) set forth in claim 13 ~~or 14 depending on claim 4~~, wherein:

the movable shelf comprises two guiding elements, each slide mounted along the corresponding slider and in a swivel and slide manner along the corresponding track, and,

when ~~the~~ one of said guiding elements (13) is close to ~~the~~ a lower end (47b) of the slider (47), it is also close to ~~the~~ a lower end (46b) of the track (46), and when it is close to ~~the~~ a upper end (47a) of the slider (47), it is also close to ~~the~~ a upper end (46a) of the track (46).

16. Canceled

17. (Amended) ~~Shelf~~ The shelf assembly (3) set forth in ~~any of claims 1 to 15 depending on claim 4~~, wherein the movable shelf (48) comprises a substantially plane surface (51) ~~defining the shelf plate~~ and two torque arms (50) which support the guiding elements (13) and which are articulated with respect to ~~the substantially plane surface (51)~~ said

(13) and which are articulated with respect to ~~the substantially plane surface (51)~~ said substantially plane plate so that, when the shelf (48) is in its deployed position, the substantially plane ~~surface (51)~~ plate is in a substantially horizontal position and, when the shelf (48) is in its retracted position, the substantially plane ~~surface (51)~~ plate is in an inclined position with respect to the horizontal, ~~preferably in a substantially vertical position.~~

18. Canceled

19. Canceled

20. (Amended) ~~Shelf~~ The shelf assembly (3) set forth in ~~any of claims 17 to 19 depending on claim 13~~ claim 17, wherein:

the tracks are fixed to said frame of the vehicle,

the tracks and the supporting means are configured so that said movable shelf is adapted to be arranged along the backrest of the seat when in its retracted position, and,

the articulating of the substantially plane ~~surface (51)~~ plate with respect to the torque arms (50) is controlled by the displacement of the torque arms (50) with respect to the frame (45).

21. Canceled
